Electricity to use in Kanayama tunnel transformer substation, contract power : 110kW the estimated electricity consumption for the delivery period : 425,000kWh

Electricity to use in Takanomine tunnel transformer substation, contract power : 343kW the estimated electricity consumption for the delivery period : 1,150,000kWh

Electricity to use in Onibushi tunnel transformer substation, contract power : 100kW the estimated electricity consumption for the delivery period : 335,000kWh

Electricity to use in Taiheiji tunnel transformer substation, contract power : 105kW the estimated electricity consumption for the delivery period : 383,000kWh

Electricity to use in Nou interchange transformer substation, contract power : 60kW the estimated electricity consumption for the delivery period : 219,000kWh

Electricity to use in Nadachi tunnel transformer substation, contract power : 170kW the estimated electricity consumption for the delivery period : 534,000kWh

Electricity to use in Yakushi tunnel transformer substation, contract power : 224kW the estimated electricity consumption for the delivery period : 852,000kWh

Electricity to use in Kasugayama tunnel transformer substation, contract power : 236kW the estimated electricity consumption for the delivery period : 872,000kWh

Electricity to use in Joetsu interchange transformer substation, contract power : 237kW the estimated electricity consumption for the delivery period : 720,000kWh

Electricity to use in Kakizakisep-pyoubunshitsu transformer substation, contract power : 21kW the estimated electricity consumption for the delivery period : 28,000kWh

Electricity to use in Kakizaki interchange transformer substation, contract power : 79kW the estimated electricity consumption for the delivery period : 249,000kWh

Electricity to use in Myokokogen interchange transformer substation, contract power : 82kW the estimated electricity consumption for the delivery period : 284,000kWh

Electricity to use in Nakago interchange transformer substation, contract power : 80kW the estimated electricity consumption for the delivery period : 285,000kWh

Electricity to use in Joetsu Takada interchange transformer substation, contract power : 82kW the estimated electricity consumption for the delivery period : 269,000kWh

Electricity to use in Kannondaira tunnel transformer substation, contract power : 130kW the estimated electricity consumption for the delivery period : 454,000kWh

Electricity to use in Kanayasan tunnel transformer substation, contractpower : 75kW the estimated electricity consumption for the delivery period : 205,000kWh

⑧ Electricity to use in Tomari tunnel transformer substation, contract power : 83kW the estimated electricity consumption for the delivery period : 247,000kWh

Electricity to use in Shiroyama tunnel transformer substation, contract power : 204kW the estimated electricity consumption for the delivery period : 819,000kWh

Electricity to use in Etchusakai parkingarea transformer substation, contract power : 48kW the estimated electricity consumption for the delivery period : 153,000kWh

Electricity to use in Sakai tunnel transformer substation, contract power : 268kW the estimated electricity consumption for the delivery period : 776,000kWh

⑷ [⑵①, ②] Delivery period : from 1 February, 2017 through 31 March, 2018

[⑵③～⑧] Delivery period : from 1 April, 2017 through 31 March, 2018

⑸ Delivery places : As shown in the tender documentation
