(b) protect the technical integrity of public telecommunications transport networks or services.

6. Provided that they satisfy the criteria set out in paragraph 5, conditions for access to, and use of, public telecommunications transport networks and services may include:

(a) restrictions on resale or shared use of those services;

(b) a requirement to use specified technical interfaces, including interface protocols, for inter-connection with public telecommunications transport networks and services;

(c) requirements, if necessary, for the inter-operability of public telecommunications transport services and to encourage the achievement of the goals set out in Article 8.55;

(d) type approval of terminal or other equipment which interfaces with public telecommunications transport networks and technical requirements relating to the attachment of that equipment to those networks;

(e) restrictions on inter-connection of private leased or owned circuits with public telecommunications transport networks or services, or with circuits leased or owned by other service suppliers; or

(f) notification, permit, registration and licensing.

ARTICLE 8.45

Number portability

Each Party shall ensure that suppliers of public telecommunications transport services in its territory provide number portability for mobile services and any other services designated by that Party, on a timely basis and on reasonable terms and conditions.

ARTICLE 8.46

Resale

If a Party requires a supplier of public telecommunications transport services to offer its public telecommunications transport services for resale, that Party shall ensure that such supplier does not impose unreasonable or discriminatory conditions or limitations on the resale of its public telecommunications transport services.
