⑽ Submission of Tender by Tendering Group

(i) In cases where a single supplier is unable to implement all the services, a tender may be submitted by a group of two or more suppliers (hereinafter the "tendering group").

In such case, one of the tendering group members, acting as the representative of the group, shall submit the proposal sheet and take the tender procedures in such representative's name. For making an application for participation in tender procedures, a tendering group is required to prepare and submit a written agreement for the formation of a tendering group.

For implementing the services, the representative of the tendering group shall be responsible for coordination and liaison with the government. In addition, the tendering group members shall also periodically coordinate with the government so that the services will be implemented in a smooth and efficient manner.

A tendering group member may not, solely or jointly with another tendering group participating in the same tender, submit the tender.

(ii) The representative shall satisfy all of the requirements specified in ① through ③ and ⑤ through ⑨ above, and members of the group shall satisfy the requirements specified in items ① through ③ and ⑤ through ⑧ above.

With regard to the requirements set out in item ④ above, it is sufficient that the tendering group as a whole satisfies all these requirements; however, the representative and each group member shall have at least one type of qualification for participation in the tendering procedures.
