8. The notice provided for in paragraph 7 shall include:

(a) a description of the goods or services, or categories thereof, for which the list may be used;

(b) the conditions for participation to be satisfied by suppliers for inclusion on the list and the methods that the procuring entity will use to verify that a supplier satisfies the conditions;

(c) the name and address of the procuring entity and other information necessary to contact the entity and obtain all relevant documents relating to the list;

(d) the period of validity of the list and the means for its renewal or termination, or where the period of validity is not provided, an indication of the method by which notice will be given of the termination of use of the list; and

(e) an indication that the list may be used for procurement covered by this Agreement.

9. Notwithstanding paragraph 7, where a multi-use list will be valid for three years or less, a procuring entity may publish the notice referred to in paragraph 7 only once, at the beginning of the period of validity of the list, provided that the notice:

(a) states the period of validity and that further notices will not be published; and

(b) is published by electronic means and is made available continuously during the period of its validity.

10. A procuring entity shall allow suppliers to apply at any time for inclusion on a multi-use list and shall include on the list all qualified suppliers within a reasonably short time.

11. Where a supplier that is not included on a multi-use list submits a request for participation in a procurement based on a multi-use list and all required documents, within the time-period provided for in Article XI:2, a procuring entity shall examine the request. The procuring entity shall not exclude the supplier from consideration in respect of the procurement on the grounds that the entity has insufficient time to examine the request, unless, in exceptional cases, due to the complexity of the procurement, the entity is not able to complete the examination of the request within the time-period allowed for the submission of tenders.

Annex 2 and Annex 3 Entities

12. A procuring entity covered under Annex 2 or 3 may use a notice inviting suppliers to apply for inclusion on a multi-use list as a notice of intended procurement, provided that:

(a) the notice is published in accordance with paragraph 7 and includes the information required under paragraph 8, as much of the information required under Article VII:2 as is available and a statement that it constitutes a notice of intended procurement or that only the suppliers on the multi-use list will receive further notices of procurement covered by the multi-use list; and

(b) the entity promptly provides to suppliers that have expressed an interest in a given procurement to the entity, sufficient information to permit them to assess their interest in the procurement, including all remaining information required in Article VII:2, to the extent such information is available.

13. A procuring entity covered under Annex 2 or 3 may allow a supplier that has applied for inclusion on a multi-use list in accordance with paragraph 10 to tender in a given procurement, where there is sufficient time for the procuring entity to examine whether the supplier satisfies the conditions for participation.

Information on Procuring Entity Decisions

14. A procuring entity shall promptly inform any supplier that submits a request for participation in a procurement or application for inclusion on a multi-use list of the procuring entity's decision with respect to the request or application.

15. Where a procuring entity rejects a supplier's request for participation in a procurement or application for inclusion on a multi-use list, ceases to recognize a supplier as qualified, or removes a supplier from a multi-use list, the entity shall promptly inform the supplier and, on request of the supplier, promptly provide the supplier with a written explanation of the reasons for its decision.

Article X　Technical Specifications and Tender Documentation

Technical Specifications

1. A procuring entity shall not prepare, adopt or apply any technical specification or prescribe any conformity assessment procedure with the purpose or the effect of creating unnecessary obstacles to international trade.

2. In prescribing the technical specifications for the goods or services being procured, a procuring entity shall, where appropriate:

(a) set out the technical specification in terms of performance and functional requirements, rather than design or descriptive characteristics; and

(b) base the technical specification on international standards, where such exist; otherwise, on national technical regulations, recognized national standards or building codes.

3. Where design or descriptive characteristics are used in the technical specifications, a procuring entity should indicate, where appropriate, that it will consider tenders of equivalent goods or services that demonstrably fulfil the requirements of the procurement by including words such as "or equivalent" in the tender documentation.

4. A procuring entity shall not prescribe technical specifications that require or refer to a particular trademark or trade name, patent, copyright, design, type, specific origin, producer or supplier, unless there is no other sufficiently precise or intelligible way of describing the procurement requirements and provided that, in such cases, the entity includes words such as "or equivalent" in the tender documentation.

5. A procuring entity shall not seek or accept, in a manner that would have the effect of precluding competition, advice that may be used in the preparation or adoption of any technical specification for a specific procurement from a person that may have a commercial interest in the procurement.

6. For greater certainty, a Party, including its procuring entities, may, in accordance with this Article, prepare, adopt or apply technical specifications to promote the conservation of natural resources or protect the environment.
