(3) [*Transmission of Notification of Refusal. Remedies*] (a) The International Bureau shall, without delay, transmit a copy of the notification of refusal to the holder.

(b) The holder shall enjoy the same remedies as if any industrial design that is the subject of the international registration had been the subject of an application for the grant of protection under the law applicable to the Office that communicated the refusal. Such remedies shall at least consist of the possibility of a re-examination or a review of the refusal or an appeal against the refusal.

(4) [*Withdrawal of Refusal*] Any refusal may be withdrawn, in part or in whole, at any time by the Office that communicated it.

Article 13

Special Requirements Concerning Unity of Design

(1) [*Notification of Special Requirements*] Any Contracting Party whose law, at the time it becomes party to this Act, requires that designs that are the subject of the same application conform to a requirement of unity of design, unity of production or unity of use, or belong to the same set or composition of items, or that only one independent and distinct design may be claimed in a single application, may, in a declaration, notify the Director General accordingly. However, no such declaration shall affect the right of an applicant to include two or more industrial designs in an international application in accordance with Article 5(4), even if the application designates the Contracting Party that has made the declaration.

(2) [*Effect of Declaration*] Any such declaration shall enable the Office of the Contracting Party that has made it to refuse the effects of the international registration pursuant to Article 12(1) pending compliance with the requirement notified by that Contracting Party.

(3) [*Further Fees Payable on Division of Registration*] Where, following a notification of refusal in accordance with paragraph (2), an international registration is divided before the Office concerned in order to overcome a ground of refusal stated in the notification, that Office shall be entitled to charge a fee in respect of each additional international application that would have been necessary in order to avoid that ground of refusal.

Article 14

Effects of the International Registration

(1) [*Effect as Application Under Applicable Law*] The international registration shall, from the date of the international registration, have at least the same effect in each designated Contracting Party as a regularly-filed application for the grant of protection of the industrial design under the law of that Contracting Party.

(2) [*Effect as Grant of Protection Under Applicable Law*] (a) In each designated Contracting Party the Office of which has not communicated a refusal in accordance with Article 12, the international registration shall have the same effect as a grant of protection for the industrial design under the law of that Contracting Party at the latest from the date of expiration of the period allowed for it to communicate a refusal or, where a Contracting Party has made a corresponding declaration under the Regulations, at the latest at the time specified in that declaration.

(b) Where the Office of a designated Contracting Party has communicated a refusal and has subsequently withdrawn, in part or in whole, that refusal, the international registration shall, to the extent that the refusal is withdrawn, have the same effect in that Contracting Party as a grant of protection for the industrial design under the law of the said Contracting Party at the latest from the date on which the refusal was withdrawn.

(c) The effect given to the international registration under this paragraph shall apply to the industrial design or designs that are the subject of that registration as received from the International Bureau by the designated Office or, where applicable, as amended in the procedure before that Office.

(3) [*Declaration Concerning Effect of Designation of Applicant's Contracting Party*] (a) Any Contracting Party whose Office is an Examining Office may, in a declaration, notify the Director General that, where it is the applicant's Contracting Party, the designation of that Contracting Party in an international registration shall have no effect.

(b) Where a Contracting Party having made the declaration referred to in subparagraph (a) is indicated in an international application both as the applicant's Contracting Party and as a designated Contracting Party, the International Bureau shall disregard the designation of that Contracting Party.
