| | Description: | Only Colombian nationals or juridical persons organized under Colombian law may own and maintain real and effective control of an airplane registered to supply specialty air services in Colombia.<br>All specialty air services companies established in Colombia as an agency or branch shall employ Colombian workers in a proportion of no less than 90 per cent for its operation in Colombia. This percentage shall not apply to foreign workers from countries that accord reciprocity to Colombian workers. The aeronautic authority may allow, under justified reasons and for the necessary time, the no application of the workforce limitation mentioned. |
