(a) safeguard the public service responsibilities of suppliers of public telecommunications transport networks and services, in particular their ability to make their networks or services available to the public generally; or

(b) protect the technical integrity of public telecommunications transport networks or services.

6. Provided that they satisfy the criteria set out in paragraph 5, conditions for access to and use of public telecommunications transport networks and services may include:

(a) restrictions on resale or shared use of such services;

(b) a requirement to use specified technical interfaces, including interface protocols, for inter-connection with public telecommunications transport networks and services;

(c) requirements, where necessary, for the inter-operability of public telecommunications transport services and to encourage the achievement of the goals set out in Article 13 of this Annex;

(d) type approval of terminal or other equipment which interfaces with public telecommunications transport networks and technical requirements related to the attachment of such equipment to such networks;

(e) restrictions on inter-connection of private leased or owned circuits with public telecommunications transport networks or services or with circuits leased or owned by other service suppliers; or

(f) notification, registration and licensing.

Article 4
Pro-Competitive Safeguard

1. Each Party shall adopt and/or maintain appropriate measures for the purpose of preventing suppliers who, alone or together, are a major supplier from engaging in or continuing anti-competitive practices.

2. The anti-competitive practices referred to in paragraph 1 shall include, in particular:

(a) engaging in anti-competitive cross-subsidization;

(b) using information obtained from competitors with anti-competitive results; and

(c) not making available to other suppliers of public telecommunications transport networks or services, on a timely basis, technical information about essential facilities and commercially relevant information which are necessary for them to supply services.

Article 5
Resale

Each Party shall ensure that suppliers of public telecommunications transport networks or services in its Area do not impose unreasonable or discriminatory conditions or limitations on the provision of the resale services by suppliers of public telecommunications transport networks or services of the other Party.

Article 6
Interconnection

1. Each Party shall ensure that suppliers of public telecommunications transport networks in its Area provide interconnection with the suppliers of public telecommunications transport networks or services of the other Party to the extent provided for in its laws and regulations.
