Electricity to use in Hariusu tunnel transformer substation, contract power : 91kW The estimated electricity consumption for the delivery period : 680,000kWh

Electricity to use in Asari tunnel transformer substation, contract power : 114kW The estimated electricity consumption for the delivery period : 710,000kWh

Electricity to use in Wakatake tunnel transformer substation, contract power : 100kW The estimated electricity consumption for the delivery period : 500,000kWh

Electricity to use in Oiwakecho interchange transformer substation, contract power : 66kW The estimated electricity consumption for the delivery period : 580,000kWh

Electricity to use in Yubari tunnel transformer substation, contract power : 39kW The estimated electricity consumption for the delivery period : 210,000kWh

Electricity to use in Hokkaido Regional Head office building transformer substation, contract power : 352kW The estimated electricity consumption for the delivery period : 3,910,000kWh

④ Electricity to use in Ebetsunishi interchange transformer substation, contract power : 99kW The estimated electricity consumption for the delivery period : 670,000kWh

Electricity to use in Nopporo parking area transformer substation, contract power : 46kW The estimated electricity consumption for the delivery period : 380,000kWh

Electricity to use in Iwamizawa interchange transformer substation, contract power : 140kW The estimated electricity consumption for the delivery period : 1,310,000kWh

Electricity to use in Iwamizawa service area transformer substation, contract power : 192kW The estimated electricity consumption for the delivery period : 1,760,000kWh

Electricity to use in Mikasa interchange transformer substation, contract power : 66kW The estimated electricity consumption for the delivery period : 570,000kWh

Electricity to use in Koshunai tunnel transformer substation, contract power : 116kW The estimated electricity consumption for the delivery period : 640,000kWh

Electricity to use in Bibai tunnel transformer substation, contract power : 140kW The estimated electricity consumption for the delivery period : 1,150,000kWh

Electricity to use in Bibai interchange transformer substation, contract power : 81kW The estimated electricity consumption for the delivery period : 650,000kWh

Electricity to use in Chashinai parking area transformer substation, contract power : 64kW The estimated electricity consumption for the delivery period : 360,000kWh

⑤ Electricity to use in Naiesunagawa interchange transformer substation, contract power : 76kW The estimated electricity consumption for the delivery period : 640,000kWh

Electricity to use in Sunagawa service area transformer substation, contract power : 180kW The estimated electricity consumption for the delivery period : 2,030,000kWh

Electricity to use in Takikawa interchange transformer substation, contract power : 130kW The estimated electricity consumption for the delivery period : 1,130,000kWh

Electricity to use in Fukagawa junction transformer substation, contract power : 81kW The estimated electricity consumption for the delivery period : 690,000kWh

Electricity to use in Fukagawa interchange transformer substation, contract power : 79kW The estimated electricity consumption for the delivery period : 660,000kWh

Electricity to use in Tokiwaetanbetsu tunnel transformer substation, contract power : 344kW The estimated electricity consumption for the delivery period : 3,300,000kWh

Electricity to use in Arashiyama tunnel transformer substation, contract power : 142kW The estimated electricity consumption for the delivery period : 1,140,000kWh

Electricity to use in Asahikawatakasu interchange transformer substation, contract power : 150kW The estimated electricity consumption for the delivery period : 1,450,000kWh

Electricity to use in Asahikawakita interchange transformer substation, contract power : 74kW The estimated electricity consumption for the delivery period : 630,000kWh

Electricity to use in Wassamu interchange transformer substation, contract power : 76kW The estimated electricity consumption for the delivery period : 640,000kWh

Electricity to use in Shibetsukenbuchi interchange transformer substation, contract power : 57kW The estimated electricity consumption for the delivery period : 470,000kWh

⑥ Electricity to use in Yubari interchange transformer substation, contract power : 112kW The estimated electricity consumption for the delivery period : 930,000kWh

Electricity to use in Kuruki tunnel transformer substation, contract power : 51kW The estimated electricity consumption for the delivery period : 300,000kWh

Electricity to use in Kaede, Oyubari tunnel transformer substation, contract power : 533kW The estimated electricity consumption for the delivery period : 2,970,000kWh

Electricity to use in Mukawahobetsu interchange transformer substation, contract power : 57kW The estimated electricity consumption for the delivery period : 430,000kWh

Electricity to use in Osawa, Hobetsu tunnel transformer substation, contract power : 574kW The estimated electricity consumption for the delivery period : 2,760,000kWh

Electricity to use in Shimukappu tunnel transformer substation, contract power : 389kW The estimated electricity consumption for the delivery period : 1,530,000kWh

Electricity to use in Tannenai, Shimukappuchuo tunnel transformer substation, contract power : 96kW The estimated electricity consumption for the delivery period : 540,000kWh

Electricity to use in Shimukappu interchange transformer substation, contract power : 92kW The estimated electricity consumption for the delivery period : 730,000kWh

Electricity to use in Horokatomamu tunnel transformer substation, contract power : 367kW The estimated electricity consumption for the delivery period : 2,580,000kWh

Electricity to use in Tomamu interchange transformer substation, contract power : 83kW The estimated electricity consumption for the delivery period : 660,000kWh

Electricity to use in Karikachidaini tunnel transformer substation, contract power : 403kW The estimated electricity consumption for the delivery period : 2,900,000kWh

Electricity to use in Hirouchi tunnel transformer substation, contract power : 88kW The estimated electricity consumption for the delivery period : 730,000kWh

Electricity to use in Tokachishimizu interchange transformer substation, contract power : 91kW The estimated electricity consumption for the delivery period : 740,000kWh
