(c) implement, as appropriate, the decisions which were adopted under the international agreements referred to in paragraph 1, including through laws, regulations, strategies, plans and programmes; and

(d) exchange information and consult with the other Party at bilateral and multilateral levels on matters of relevance to this Article, including trade in wildlife and natural resource-based products, the valuation, mapping and assessment of ecosystems and related services, and the access to genetic resources and the fair and equitable sharing of benefits arising from their utilisation.

ARTICLE 16.7

Sustainable management of forests and trade in timber and timber products

1. The Parties recognise the importance and the role of trade and investment in ensuring the conservation and sustainable management of forests.

2. In that context, the Parties shall:

(a) encourage conservation and sustainable management of forests, and trade in timber and timber products harvested in accordance with the laws and regulations of the country of harvest;

(b) contribute to combating illegal logging and related trade including, as appropriate, the trade with third countries; and

(c) exchange information and share experiences at bilateral and multilateral levels with a view to promoting the conservation and sustainable management of forests and trade in legally harvested timber and timber products, as well as to combating illegal logging.

ARTICLE 16.8

Trade and sustainable use of fisheries resources and sustainable aquaculture

1. The Parties recognise the importance and the role of trade and investment in ensuring the conservation and sustainable use and management of fisheries resources, safeguarding marine ecosystems, and promoting responsible and sustainable aquaculture.
