J　The required system has the function to send necessary data to the existent University Hospital Management Accounting System or Management Analysis System. The system is connected with the physical distribution management system by unified centralization.

K　The required system has the function of the data warehouse which helps to make hospital statistics and supports the clinical case management and the clinical study.

L　The terminals of the required system has various input／output devices such as multi-windows, GUI, mouse, pen-tablet, digital pen, digital camera, voice, and so on. The terminal has the optimal human interface for medical practice and the unified operation. Additional terminals are able to be prepared for the duration of the lease. The required system can use wireless PC and mobile PC for the patient check or the reference of the data in the electronic health record system at the bedside.

M　The required system has to work without stopping the service during the contract term. The system is designed to minimize the system trouble, localize the influence and always work with quick response time. The system has the disk capacity to store all data of the existing hospital information system and all clinical data during the contract term. The medical information is possible to be stored in the cloud storage after consultation with our hospital.

N　The required system has the function to operate the electronic health record system smoothly, according to the system performance. The system has a high level of redundancy and a flexible treatment for system changes. The system integrates with the information base system for research and the telephone exchange system physically and these systems are divided by logically. The system has a security capability to detect injustice access, leak of information and vandalism. The security capability works not only in the inlet and outlet but also in the internal area to detect dubious actions. The system has the wireless local area network to connect notebook computers and mobile terminals.

O　The required system has the function of user registration, system maintenance, privacy protection, information security, and so on. The required system has the function to control all terminals from the Hospital Information Center.

P　The successful bidder has to have a supporting staff system to maintain all required system, to avoid stopping the service of the required system and to recover immediately. The system has to strengthen against the natural disaster. The required system has the function to use the current version of the software and to offer the program.

⑸　Time limit for the submission of the requested material : 17 : 00　10 March, 2020

⑹　Contact point for the notice : Kouji Kudou, Procurement Section, Accounting Division, Oita University, 1―1 Idaigaoka Hasama-machi Yufu-shi Oita 879―5593 Japan, TEL 097―586―5270

資料提供招請に関する公表

次のとおり物品の導入を予定していますので、当該導入に関して資料等の提供を招請します。

令和２年２月６日

国立大学法人宮崎大学

契約担当役　理事　迫田浩一郎

◎調達機関番号　415　◎所在地番号　45

○第１号

１　調達内容

⑴　品目分類番号　22、31

⑵　導入計画物品及び数量　周産期診療支援システム　一式

⑶　調達方法　購入等

⑷　導入予定時期　令和２年度９月以降

⑸　調達に必要とされる基本的な要求要件

A　シーリングサプライユニット

B　無影灯

C　尿量測定装置

D　ベッドサイドモニタ

E　定置型保育器

F　開放式保育器

G　分娩監視装置

H　光線治療器

I　搬送用人工呼吸器

J　新生児用人工呼吸器

K　新生児用気管支内視鏡

L　診療材料キャビネット

２　資料及びコメントの提供方法　上記１⑵の物品に関する一般的な参考資料及び同⑸の要求要件等に関するコメント並びに提供可能なライブラリーに関する資料等の提供を招請する。

⑴　資料等の提供期限　令和２年３月23日17時00分（郵送の場合は必着のこと。）

⑵　提供先　〒889―2192 宮崎市学園木花台西一丁目１番地　国立大学法人宮崎大学財務部経理調達課　阿南　拓磨　電話0985―58―7574

３　説明書の交付　本公表に基づき応募する供給者に対して導入説明書を交付する。

⑴　交付期間　令和２年２月６日から令和２年３月23日まで。

⑵　交付場所　上記２⑵に同じ。

４　説明会の開催　本公表に基づく導入説明会を開催する。

⑴　開催日時　令和２年２月10日11時00分

⑵　開催場所　宮崎大学木花キャンパス事務局４階会議室

５　その他　この導入計画の詳細は導入説明書による。なお、本公表内容は予定であり、変更することがあり得る。

６　Summary

⑴　Classification of the products to be procured : 22, 31

⑵　Nature and quantity of the products to be purchased : Perinatal medical care support system 1 Set

⑶　Type of the procurement : Purchase

⑷　Basic requirements of the procurement :

A　Ceiling supply unit

B　Surgical light

C　Urine volume measurement device

D　Bedside monitor

E　Stationary incubator

F　Open incubator

G　Delivery monitoring device

H　Phototherapy device

I　Transport ventilator

J　Neonatal ventilator

K　Neonatal bronchoscope

L　Clinical material cabinet

⑸　Time limit for the submission of the requested material : 17 : 00　23 March, 2020

⑹　Contact point for the notice : Takuma Anan, Procurement Section, Accounting Division, National University Corporation University of Miyazaki, 1―1 Gakuen Kibana-dai Nishi Miyazaki-shi 889―2192 Japan, TEL 0985―58―7574

意見招請に関する公示

次のとおり調達に関する仕様書案の作成が完了したので、仕様書案に対する意見を招請します。

令和２年２月６日

法務省大臣官房会計課長　野口　宣大

◎調達機関番号　013　◎所在地番号　13

○第 46 号

１　調達内容

⑴　品目分類番号　71、27

⑵　購入等特定役務及び数量　登記情報システムの更改に向けた要件定義等支援業務の請負　一式

２　意見の提出方法

⑴　意見の提出期限　令和２年２月27日17時00分（郵送等の場合は必着のこと。）

⑵　提出先　〒100―8977 東京都千代田区霞が関１－１－１　法務省大臣官房会計課調達第二係　渡辺　　亮　電話03―3580―4128
