(b) promote conservation and sustainable use of fisheries resources through appropriate international organisations or bodies in which both Parties participate, including regional fisheries management organisations (hereinafter referred to as "RFMOs"), by means of, where applicable, effective monitoring, control or enforcement of the RFMOs' resolutions, recommendations or measures, and implementation of their catch documentation or certification schemes;

(c) adopt and implement their respective effective tools for combating illegal, unreported and unregulated (hereinafter referred to as "IUU") fishing, including through legal instruments, and, where appropriate, control, monitoring and enforcement, and capacity management measures, recognising that voluntary sharing of information on IUU fishing will enhance the effectiveness of these tools in the fight against IUU fishing, and underlining the crucial role of the members of RFMOs with major fisheries markets to leverage a sustainable use of fisheries resources; and

(d) promote the development of sustainable and responsible aquaculture, taking into account its economic, social and environmental aspects.

ARTICLE 16.9

Scientific information

When preparing and implementing measures with the aim of protecting the environment or labour conditions that may affect trade or investment, the Parties shall take account of available scientific and technical information, and where appropriate, relevant international standards, guidelines or recommendations, and the precautionary approach.

ARTICLE 16.10

Transparency

Each Party shall ensure that any measure of general application pursuing the objectives of this Chapter is administered in a transparent manner, in accordance with its laws and regulations and Chapter 17, including by providing the public with reasonable opportunities and sufficient time to comment, and by publishing such measures.

ARTICLE 16.11

Review of sustainability impacts

The Parties recognise the importance of reviewing, monitoring and assessing, jointly or individually, the impact of the implementation of this Agreement on sustainable development through their respective processes and institutions, as well as those set up under this Agreement.

ARTICLE 16.12

Cooperation

Recognising the importance of cooperation on trade-related and investment-related aspects of environmental and labour policies in order to achieve the objectives of this Agreement, the Parties may, *inter alia*:

(a) cooperate at bilateral or multilateral level in the fields of environmental protection and labour, including through appropriate international organisations or bodies in which both Parties participate;

(b) cooperate on evaluating the mutual impact between trade and environment, and trade and labour, as well as on identifying ways to enhance, prevent or mitigate such impact, taking into account the results of the monitoring and assessment carried out by the Parties;
