Reservation No. 1 – All sectors

Sector:	All sectors
Type of reservation:	Market access
	National treatment
	Most-favoured-nation treatment
	Senior management and boards of directors
	Prohibition of performance requirements
Section:	Investment liberalisation and Cross-border trade in services

Description:

The UK reserves the right to adopt or maintain any measure with respect to the following:

(a) Commercial presence

With respect to Investment liberalisation – Market access:

Services considered as public utilities at a national or local level may be subject to public monopolies or to exclusive rights granted to private operators.

Public utilities exist in sectors such as related scientific and technical consulting services, research and development (R&D) services on social sciences and humanities, technical testing and analysis services, environmental services, health services, transport services and services auxiliary to all modes of transport. Exclusive rights on such services are often granted to private operators, for instance operators with concessions from public authorities, subject to specific service obligations. Given that public utilities often also exist at the sub-central level, detailed and exhaustive sector-specific scheduling is not practical. This reservation does not apply to telecommunications and to computer and related services.

Existing measures:
