	Description	:	Trade in Services and Investment: Facilities-based operators and service-based operators must be locally incorporated under the *Companies Act*, Cap. 50, 2006 Revised Edition. "Facilities-based operators" are operators who deploy any form of telecommunication networks, systems and facilities, outside of their own property boundaries, to offer telecommunication services to third parties, which may include other licensed telecommunication operators, business customers, or the general public. "Service-based operators" are operators who lease telecommunication network elements (such as transmission capacity and switching services) from any Facilities-Based Operator (FBO) licensed by Infocomm Media Development Authority of Singapore (IMDA) so as to provide their own telecommunication services, or to resell the telecommunication services of FBOs to third parties. The number of licences granted will be limited only by resource constraints, such as the availability of radio frequency spectrum. In view of spectrum constraints, parties interested in deploying networks based on wireless technology may be licensed to use radio frequency spectrum via a tender or auction process.
