(e) conservation and sustainable management of forests, including, where appropriate, illegal logging; and

(f) other areas decided under the relevant policy dialogue.

2. The Parties shall endeavour to enhance cooperation in the frameworks of relevant international agreements and instruments, as applicable to the Parties, as well as in international fora.

ARTICLE 24

Climate change

1. The Parties, recognising the need for an urgent, deep and sustained reduction in global emissions of greenhouse gases so as to hold the increase in global average temperature to well below 2°C above pre-industrial levels and to pursue efforts to limit the temperature increase to 1.5°C above pre-industrial levels, will take the lead in combating climate change and the adverse effects thereof, including through domestic and international actions to reduce anthropogenic greenhouse gas emissions. The Parties shall cooperate, where appropriate, under the United Nations Framework Convention on Climate Change, done at New York on 9 May 1992 to achieve the objective of that Convention, in implementing the Paris Agreement, done at Paris on 12 December 2015, and to strengthen the multilateral legal frameworks. They shall also seek to enhance cooperation in other relevant international fora.

2. The Parties shall, with a view to promoting sustainable development, also seek cooperation by enhancing the exchange of information and best practices and, where appropriate, promoting coordination of policies, on issues of mutual interest in the area of climate change, including issues such as:

(a) mitigation of climate change through various measures such as research and development of low-carbon technology, market-based mechanisms and reduction of short-lived climate pollutants;

(b) adaptation to the adverse effects of climate change; and

(c) assistance to third countries.

ARTICLE 25

Urban policy

The Parties shall enhance the exchange of experiences and good practices in the area of urban policies, in particular to address common challenges in this area, including those arising from demographic dynamics and climate change. The Parties shall also encourage, where appropriate, such exchange of experiences and good practices among their local governments or city authorities.
