on its implementation of paragraph 6 above, to inform the monitoring and review under article 26.

8. An objection to a decision made in accordance with paragraph 4 above may only be renewed if the objecting Party considers it still necessary, every three years after the entry into force of the decision, by written notification to the secretariat. Such written notification shall include an explanation of the grounds of its initial objection.

9. If no notification of renewal pursuant to paragraph 8 above is received, the objection shall be considered automatically withdrawn and, thereupon, the decision shall be binding for that Party 120 days after that objection is automatically withdrawn. The secretariat shall notify the Party 60 days prior to the date on which the objection will be automatically withdrawn.

10. Decisions of the Conference of the Parties adopted under this Part, and objections to those decisions, shall be made publicly available by the secretariat and shall be transmitted to all States and relevant legal instruments and frameworks and relevant global, regional, subregional and sectoral bodies.

Article 24
Emergency measures

1. The Conference of the Parties shall take decisions to adopt measures in areas beyond national jurisdiction, to be applied on an emergency basis, if necessary, when a natural phenomenon or human-caused disaster has caused, or is likely to cause, serious or irreversible harm to marine biological diversity of areas beyond national jurisdiction, to ensure that the serious or irreversible harm is not exacerbated.

2. Measures adopted under this article shall be considered necessary only if, following consultation with relevant legal instruments or frameworks or relevant global, regional, subregional or sectoral bodies, the serious or irreversible harm cannot be managed in a timely manner through the application of the other articles of this Agreement or by a relevant legal instrument or framework or a relevant global, regional, subregional or sectoral body.

3. Measures adopted on an emergency basis shall be based on the best available science and scientific information and, where available, relevant traditional knowledge of Indigenous Peoples and local communities and shall take into account the precautionary approach. Such measures may be proposed by Parties or recommended by the Scientific and Technical Body and may be adopted intersessionally. The measures shall be temporary and must be reconsidered for decision at the next meeting of the Conference of the Parties following their adoption.

4. The measures shall terminate two years following their entry into force or shall be terminated earlier by the Conference of the Parties upon being replaced by area-based management tools, including marine protected areas, and related measures established in accordance with this Part, or by measures adopted by a relevant legal instrument or framework or relevant global, regional, subregional or sectoral body, or by a decision of the Conference of the Parties when the circumstances that necessitated the measure cease to exist.

5. Procedures and guidance for the establishment of emergency measures, including consultation procedures, shall be elaborated by the Scientific and Technical Body, as necessary, for consideration and adoption by the Conference of the Parties at its earliest opportunity. Such procedures shall be inclusive and transparent.

Article 25
Implementation

1. Parties shall ensure that activities under their jurisdiction or control that take place in areas beyond national jurisdiction are conducted consistently with the decisions adopted under this Part.

2. Nothing in this Agreement shall prevent a Party from adopting more stringent measures with respect to its nationals and vessels or with regard to activities under its jurisdiction or control in addition to those adopted under this Part, in accordance with international law and in support of the objectives of the Agreement.

3. The implementation of the measures adopted under this Part should not impose a disproportionate burden on Parties that are small island developing States or least developed countries, directly or indirectly.

4. Parties shall promote, as appropriate, the adoption of measures within relevant legal instruments and frameworks and relevant global, regional, subregional and sectoral bodies of which they are members, to support the implementation of the decisions and recommendations made by the Conference of the Parties under this Part.

5. Parties shall encourage those States that are entitled to become Parties to this Agreement, in particular those whose activities, vessels or nationals operate in an area that is the subject of an established area-based management tool, including a marine protected area, to adopt measures supporting the decisions and recommendations of the Conference of the Parties on area-based management tools, including marine protected areas, established under this Part.

6. A Party that is not a party to or a participant in a relevant legal instrument or framework, or a member of a relevant global, regional, subregional or sectoral body, and that does not otherwise agree to apply the measures established under such instruments and frameworks and by such bodies shall not be discharged from the obligation to cooperate, in accordance with the Convention and this Agreement, in the conservation and sustainable use of marine biological diversity of areas beyond national jurisdiction.
